Hello Savage Parents, Residents, and Warrior Fans!

It is amazing to me how our first quarter of school has sailed by. I want to thank all of the school community for following the COVID-19 preventative measures of governmental mask wearing and staying home when you feel under the weather. When our school receives any new COVID-19 reports from the Richland County Health Department pertaining to our school, we will continue to post the appropriate information on Facebook and our school website.

Seeing our students so happy and eager to be back learning in school has been delightful! I know there was a lot of constant work, effort, and even some frustration going on from students, parents, grandparents, and teachers during remote learning. The research is telling us that our students missed being in school with their peers and the routine of an educational setting. It's been a great joy to have our students and staff on campus full time!

Our staff is unstoppable in making sure that students' needs are number one. Every day I see teachers going the extra mile, even when that mile seems extremely long in effort to help students achieve academically, physically, socially, or mentally. The energy of our entire staff and community to do everything possible to help our students have the events, excitement, memories, and milestones in their childhood, teen years, and nearing adulthood years has melted my heart! Thank you.
